Grow and Protect Your Practice

with Canada's Leading Dental Software Provider

ABELDent

Top 10 Reasons for Choosing ABELDent as your Dental Software Provider

1. Reach full business potential: ABELDent's software is designed to track and monitor specific practice objectives that consistently drive measurable improvement.

2. Enjoy peace of mind: a financially stable and committed Canadian company you can trust with over 40 years of experience serving the healthcare software market.

3. Experience exceptional service: personalized post-sales assistance and, prompt and professional technical support 24/7/365 from experienced industry experts.

4. A quick and easy switch: assurance of data conversion continuity, integration with most third-party imaging software at no additional charge and customized training for a smooth and efficient transition to your new software.

5. Realize immediate workflow benefits and administrative improvements: intuitive, easy- to-learn and easy-to-use features and the capability to accommodate your routine.

6. Optimize productivity: advanced features for automated tracking and management of unscheduled and recommended treatment to support your ongoing revenue stream.

7. Maximize effectiveness through continuous learning: customized training, webinars, educational videos, and many other customer portal educational tools for your entire team.

8. Achieve peak patient communication: fully integrated and automated patient communication for practice/patient interaction that goes far beyond email and text reminders.

9. Go fully paperless at any time: attain savings and ensure data synergy with integrated patient records - no need to purchase additional software modules.

10. Maximize system security and reliability: user-defined software access permissions and modified transactions tracking, regulatory body record-keeping compliance, and secure data backup services. Choose between a local or cloud based server platform.
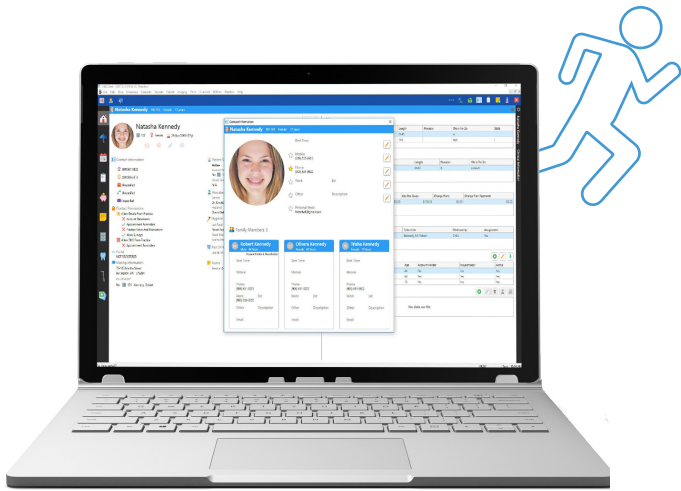

"I love ABELDent... it is easy to teach and train and they have a great support system. It takes 10 seconds every morning to send out emails via ABELDent Portal. As patients reply, their appointments are automatically confirmed on the scheduler — that's one less step for us."

Mary, Office Manager

"As one of ABEL's first customers, I'm always impressed that it continues to develop new tools and features that help me grow and manage my practice. ABEL provides a wide variety of software-enhancing services to help us get the greatest benefit from our investment."

Dr. Yvonne Surya

Proven Track Record

ABELDent believes that a quality long-term relationship with you is just as important as the quality of the software we provide. ABELDent Inc. has a multi-decade history of working with thousands of dental professionals and is the undisputed dental software leader in Canada.
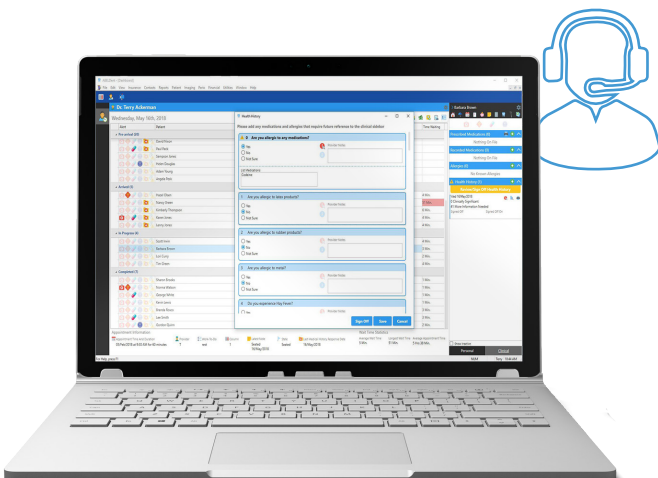

We achieved # 1 status by providing a synergistic mix of software and services to help dental offices reach higher levels of success.

Superior Software Design

Those who use ABELDent software and others who view it often comment on the intuitive interface and report that it provides a better user experience. They are impressed by workflow-based design and are pleased that the information they require can often be accessed from a single screen. Customers are also excited with ABELDent's latest value added offerings such as Reputation Management Services and Integrated Payment Card Processing (ABEL Pay).

ABELDent's advanced security, data protection and data integrity measures effectively address one of the major requirements of dental practices today – maximum protection against cyberattacks. ABELDent also supports progressive practice analytics with its comprehensive database that stores data in a format for easy retrieval and reporting using powerful Microsoft tools.

Unparalleled Support

ABELDent has the largest support resources in the industry and delivers comprehensive, cost-effective services certified to software industry quality standards. ABELDent's training program ensures a smooth and successful implementation. It is customized to fit each customer's needs: on-site, classroom, webinars and video tutorials. Our software maintenance plan provides telephone support and regular updates so that you receive maximum ROI over the life of your practice.

We never close, even for holidays, so you can reach us at any time for support and sales inquiries. ABELDent users also have 24/7 access to the MyABEL customer portal for downloads, tutorials, support articles, and many other valuable resources.
